DEEPAK KUMAR GUPT

Full stack Developer

📞 9369560031   @ dkguptak9369@gmail.com   🔗 https://github.com/DeepakGupta4   📍 Deoria, UttarPradesh

SUMMARY

Full Stack Developer Fresher with a strong foundation in building responsive web applications using **React**, **Node.js**, **MongoDB**, and **Express**. Skilled in crafting dynamic front-end interfaces with **HTML**, **CSS**, **JavaScript**, and **Tailwind CSS**, and developing robust back-end systems and APIs.

EDUCATION

B.Tech in Computer Science

SAM Global Unversity

📅 2022 - 2025   📍 Bhopal, MadhyaPradesh India

CGPA
8.4 / 10

Diploma in Mechanical Engineer

Sagar Group of Institutions Bhopal MadhyaPradesh

📅 2019 - 2022   📍 Bhopal MadhyaPradesh India

CGPA
7.89 / 10

EXPERIENCE

Full Stack Development Intern Hummingbyte Technology Pvt. Ltd. | [Remote] | [1 june 2024 – 30 nov 2024]Contributed to the development of full-stack web applications using React, Node.js, Express, and MongoDB.Built responsive user interfaces and optimized front-end performance with React and Tailwind CSS.Developed and tested RESTful APIs for efficient back-end data handling and integration.Collaborated with a team using Git for version control and agile methodologies for project management.Gained hands-on experience in deploying applications on cloud platforms and resolving production issues.

Academic Project: Employee Management System |Designed and developed an Employee Management System to manage employee records, tasks, and categories efficiently.Implemented RESTful APIs using Node.js and Express for handling CRUD operations on employee data.Integrated a PostgreSQL database for secure and efficient data storage and retrieval.Styled a responsive and user-friendly interface using Tailwind CSS, ensuring accessibility across all devices.Incorporated features like role-based access control, task categorization, and real-time data updates.

STRENGTHS

Team Work

Experienced in coordinating with cross-functional teams to deliver high-quality projects on time

Communication

Skilled in fostering collaboration through active listening, open dialogue, and concise written and verbal communication.

SKILLS

Client-Side

HTML   CSS   JS   React   Bootstrap

Server-side

NodeJS   MongoDB   Express

PROJECTS

Rapido Clone Simulated a bike-taxi booking service with features like real-time ride tracking, user authentication, and booking history.Built the front-end with React and styled it using Tailwind CSS for a responsive design.Developed back-end APIs with Node.js and Express and used MongoDB for database management.Integrated Google Maps API for route calculations and live location tracking.

E-Commerce Website Developed a full-stack e-commerce platform with product filtering, user authentication, and a dynamic shopping cart.Used React for the front-end and MongoDB for database operations.Implemented payment gateway integration and secured user data with encryption techniques.

Employee Management System Designed and developed a system to manage employee data, tasks, and categories.Created a robust back-end using Node.js and Express and implemented PostgreSQL for efficient data storage.Built a responsive front-end with React and styled using Tailwind CSS.Included features such as role-based access control and real-time data updates.
